

Melyssa Fratkin is the Industrial Programs Director at the Texas Advanced Computing Center (TACC) at The University of Texas at Austin. In this role, she oversees TACC's corporate partnerships and government relations activities. Melyssa focuses on developing and managing strong collaborations between industry and academia with the Science & Technology Affiliates for Research (STAR) program.

Melyssa is the founding co-chair of Texas Women in HPC, an organization aimed at supporting women and minorities in high performance computing in industry, academia and government across the state of Texas, by engaging in initiatives to raise awareness and broaden diversity in HPC. She also serves as Communications Chair of the ACM Special Interest Group on High Performance Computing (SIGHPC).

Melyssa received a BA from Rutgers University and MBA from the Robert H. Smith School of Business at the University of Maryland.
